A Second Chance for HKS Owners.

When it's time to overhaul your HKS engine

HKS Engine Services at Green Sky Adventures, Inc. is the number one source for returning an HKS to that Peace Of Mind Reliability originally installed by the factory.

- Green Sky builds each engine to factory specifications.
- Data and details pertinent to the service are recorded, stored, and also provided to you upon return.
- Each engine is set up and run through a test sequence where it's operational status and performance output are assured.
- Green Sky technicians have a cumulative experience of nearly forty years, in LIGHT AIRCRAFT PROPULSION systems, and generally work in Team on engine building.
- Our history in this field has established unrestricted consulting contacts with world-class engine design engineers.
- Green Sky Technical Consult Services are provided **Free** to every HKS owner who purchases through Green Sky Adventures, Inc. A Second Chance for this valuable service is available to those who made the mistake of purchasing elsewhere. By choosing Green Sky Adventures, Inc when it's time to overhaul, besides getting the best overhaul service in the industry; these owners will also receive free access to Green Sky Technical Services.
